

# VISUALIZING NEIGHBORHOODS

a hackathon for good

Saturday, May 25, 2013 (9:00 AM to 5:30 PM)  
@ Minneapolis Central Library

Hosted by the Center for Urban and Regional Affairs, with Open Twin Cities

## An event for people who...

**Have ideas about how to use information** to improve their neighborhoods.

**Enjoy using code, design and data** to bring ideas to life

**Need help using data** to tell stories and create tools

**Want to connect with others** on data visualization projects and ideas

## What to expect...

**Pitch Ideas**  
for projects that use information to improve neighborhoods.

**Form Teams**  
based on who wants to work on a proposed idea.

**Big Build** to develop solutions to the data challenge.

**Drop-in think tank** where you can see examples, talk about projects, and get your questions about data visualization answered.

**Showcase**  
of the work done during the day.

### Cost: FREE

Food and beverages provided for registered participants  
Prizes for participants

### Event sponsors include:

Open Twin Cities | Neighborhoods, USA | The McKnight Foundation | The City of Minneapolis | CURA | USI Wireless
