

This Toolkit was developed to provide a broad comprehensive resource list around housing issues that relate to potential abandonment. This resource guide is meant to be an eternally evolving document developed mainly for Minneapolis neighborhood staff. It allows for copies to be made of needed materials simply by removing them from the pocket dividers or electronically, and then giving them out to those who are in need of the information, mainly neighborhood residents

Resource Directories:

Homeowner issues:	Minneapolis Homeowner Directory
Rental issues:	Minneapolis Rental Directory
Problem properties:	Minneapolis Problem Properties and Issues Directory
	Problem Property Toolkit Report

These are lists of possible contacts that would be able to help the neighborhood and residents when other sources of assistance are needed. It is not intended to be a complete listing of all possible resources. Feel free to edit these lists to keep them up to date as time progresses. Add contacts that you find to be extremely helpful to a particular area. When making changes, or updating this directory.
